INDEX OF SUBJECTS

PAGE

ADRENAL glands, venous infarction . . 65
ALLOGRAFTS, CARDIAC, in indefinitely surviving enhanced ectopic rats, morphological changes 29
AMIDOPYRINE DEMETHYLASE activity in halothane hepatotoxicity in the horse 105
ANEURYSMS, pulmonary arterial mycotic, in cattle with vena caval thrombosis, a condition resembling the Hughes-Stovin syndrome 229
ANTIBODIES, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline 35
ANTI-INFLAMMATORY COMPOUNDS in the biochemical changes in the Arthus reaction 175
APOPTOSIS and atrophy in the cyclical human endometrium 159
ARTERIES, CORONARY, morphological changes in indefinitely surviving enhanced ectopic rat cardiac allografts . 29
ARTERIES, PULMONARY, thrombo-embolism and mycotic aneurysms in cattle with vena caval thrombosis, a condition resembling the Hughes-Stovin syndrome 229
ARTHRITIS, RHEUMATOID, aurosome formation in articular tissues after parenteral administration of gold 183
ARTHUS REACTION, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction . . 175
effect of modification of intracellular cyclic AMP levels on the immediate hypersensitivity reaction *in vivo* . 147
ARTICULAR TISSUES, aurosome formation after parenteral administration of gold 183
ATROPHY and apoptosis in the cyclical human endometrium 159
AUROSOME formation in articular tissues after parenteral administration of gold 183
AUTOIMMUNE DISEASE, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline 35
AUTORADIOGRAPHY, localisation and tissue effects of tritiated dehydroretronecine in young rats 21
morphological changes in indefinitely surviving enhanced ectopic rat cardiac allografts 29

PAGE

BOOKS RECEIVED 255
BRAIN, some effects of phenacetin on the rat 197
BRONCHI, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline . . . 35

CALCIFICATION, clinicopathological study of 20 cases of tumoural lipocalcinosis 113
CARBON DISULPHIDE, influence of hepatic microsomal amidopyrine demethylase activity on halothane hepatotoxicity in the horse 105
CARCINOMA, LARYNGEAL, an improved method of reporting on laryngectomy specimens 101
CATHEPSIN D, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction . . . 175
CATTLE, pulmonary arterial thrombo-embolism and pulmonary arterial mycotic aneurysms with vena caval thrombosis, a condition resembling the Hughes-Stovin syndrome . . 229
COMPLEMENT, mesangiocapillary glomerulonephritis in lambs, quantitative and qualitative aspects of immunopathology 11
CYCLIC AMP, effects of modification of intracellular levels on the immediate hypersensitivity reaction *in vivo* . 147

DEHYDRORETRONECINE, tritiated, localisation and tissue effects in young rats . 21
DIABETES MELLITUS, an ultrastructural and ultrahistochemical study of the placenta 91
DISSEMINATED INTRAVASCULAR COAGULATION, infarction of the adrenal glands 65
DRUG SENSITIVITY, influence of hepatic microsomal amidopyrine demethylase activity on halothane hepatotoxicity in the horse 105
some effects of phenacetin on the rat . 197

ELECTRON MICROSCOPE STUDY, atrophy and apoptosis in the cyclical human endometrium 159
ultrastructural and ultrahistochemical study of the placenta of the diabetic woman 91
ultrastructure of benign pigmented naevi and melanocarcinomas in man . . 135

PAGE

EMBOLISM, pulmonary arterial thrombo-embolism and pulmonary arterial mycotic aneurysms in cattle with vena caval thrombosis, a condition resembling the Hughes-Stovin syndrome . 229
ENDOMETRIOSIS, ovarian stromatosis . 201
ENDOMETRIUM, cyclical, human, atrophy and apoptosis 159
ENZYMES, biochemical profile of glass-adherent cell populations containing multinucleated foreign body giant cells 239

FIBROCARTILAGE, knee meniscal, in Liverpool necropsies 167

GIANT CELL, biochemical profile of glass-adherent cell populations . . 239
GLOMERULONEPHRITIS, MESANGIOCAPILLARY, in lambs, quantitative and qualitative aspects of immunopathology . . 11
GLUCOCORTICOID, triamcinolone-induced systemic infections in female mice . 57
GOBLET-CELL, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline . . . 35
GOLD, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction 175
GROWTH, localisation and tissue effects of tritiated dehydroretronecine in young rats 21

HALOTHANE hepatotoxicity in the horse . 105
HEART, morphological changes in indefinitely surviving enhanced ectopic rat cardiac allografts 29
HEPATOMAS in CBA mice, incidence, pathology and transplantation . . 211
HISTAMINE, effects of modification of intracellular cyclic AMP levels on the immediate hypersensitivity reaction *in vivo* 147
HISTOCHEMISTRY, atrophy and apoptosis in the cyclical human endometrium . 159
ultrastructural and ultrahistochemical study of the placenta of the diabetic woman 91
HORSE, influence of hepatic microsomal amidopyrine demethylase activity on halothane hepatotoxicity . . . 105
HUGHES-STOVIN SYNDROME, resembling condition — pulmonary arterial thrombo-embolism and pulmonary arterial mycotic aneurysms in cattle with vena caval thrombosis . . 229
HYDROCORTISONE, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction . . 175

PAGE

HYPERSENSITIVITY reaction *in vivo*, effects of modification of intracellular cyclic AMP levels 147
HYPOCOMPLEMENTAEMIA, mesangiocapillary glomerulonephritis in lambs, quantitative and qualitative aspects of immunopathology 11
HYPOTHERMIA, venous infarction of the adrenal glands 65

IMMUNE COMPLEX DISEASE, experimental allergic sialoadenitis, acute parotitis following intraductal instillation of antiserum to salivary antigens in the rat 129
IMMUNITY, experimental allergic sialoadenitis 129
mesangiocapillary glomerulonephritis in lambs, quantitative and qualitative aspects of immunopathology . . 11
IMMUNOFLUORESCENT TECHNIQUES, mesangiocapillary glomerulonephritis in lambs, quantitative and qualitative aspects of immunopathology . . 11
morphological changes in indefinitely surviving enhanced ectopic rat cardiac allografts 29
INFARCTION, venous, of the adrenal glands 65
INFECTIONS, triamcinolone-induced in female mice 57
INFLAMMATION, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction . . . 175
effect of modification of intracellular cyclic AMP levels on the immediate hypersensitivity reaction *in vivo*. . 147
INTIMA, morphological changes in indefinitely surviving enhanced ectopic rat cardiac allografts 29
ISOPRENALINE injections, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig 35

KIDNEY, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline . . . 35
localisation and tissue effects of tritiated dehydroretronecine in young rats . 21
possible pathogenesis of polycystic disease 221
triamcinolone-induced systemic infections in female mice. 57
KNEE meniscal fibrocartilage in Liverpool necropsies 167

LAMBS, mesangiocapillary glomerulonephritis, quantitative and qualitative aspects of immunopathology . . 11

PAGE

LARYNX, an improved method of reporting on laryngectomy specimens . . 101
LIPOCALCINOSIS, tumoural, clinicopathological study of 20 cases . . . 113
LIVER, incidence, pathology and transplantation of hepatomas in CBA mice 211
influence of hepatic microsomal amidopyrine demethylase activity on halothane hepatotoxicity in the horse . 105
localisation and tissue effects of tritiated dehydroretronecine in young rats . 21
possible pathogenesis of polycystic disease 221
triamcinolone-induced systemic infections in female mice . . . 57
LIVERPOOL necropsies, state of knee meniscal fibrocartilage 167
LUPUS ERYTHEMATOSUS, tubuloreticular structures and antinuclear antibodies in autoimmune and non-autoimmune diseases 49
LYMPHATICS, quantitative microscopical study of tumour cell nuclei in lymphatic metastasis, using a quantimet . 5
LYSOSOMAL ENZYMES, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction 175

MACROPHAGES, biochemical profile of glass-adherent cell populations containing multinucleated foreign body giant cells 239
MALAKOPLAKIA of the prostate . . 119
MAST CELLS in benign nerve sheath tumours 193
MELANOCARCINOMA in man, ultrastructure of benign pigmented naevi . . 135
MELANOSOME, ultrastructure of melanomas 135
MENISCUS, fibrocartilaginous, of the adult knee joint studied at necropsies on a random series of 94 white Europeans. 167
MESANGIOCAPILLARY GLOMERULONEPHRITIS in lambs, quantitative and qualitative aspects of immunopathology . . 11
METASTASES, quantitative microscopical study of tumour cell nuclei in lymphatic metastasis using a quantimet . . 5
venous infarction of the adrenal glands. 65
MICE, biochemical profile of glass-adherent cell populations containing multinucleated foreign body giant cells . 239
CBA, incidence, pathology and transplantation of hepatomas. . . 211
triamcinolone-induced systemic infections 57
MORPHOMETRY, quantitative microscopical study of tumour cell nuclei in lymphatic metastasis using a quantimet . 5
MUCOUS GLANDS, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline. 35

NAEVI, BENIGN PIGMENTED and melanocarcinomas in man, ultrastructural study 135
NECROPSY STUDY of knee meniscal fibrocartilage 167
NEURILEMMOMAS, mast cells in benign nerve sheath tumours . . . 193
NEUROFIBROMAS, study of brains of rats given phenacetin 193
NUCLEUS, TUMOUR, quantitative microscopical study of tumour cell nuclei in lymphatic metastasis using a quantimet 5

OBITUARY, Innes, James Robert Maitland, 25 October 1903–21 December 1974 . 187
Oakley, Cyril Leslie, 20 June 1907–27 March 1975 1
OSTEOSARCOMA of the thyroid gland . 123
OVARY, benign stromatosis and its relation to other forms of endometriosis . 201

PANCREAS, possible pathogenesis of polycystic disease 221
PAROTITIS, acute, following intraductal instillation of antiserum to salivary antigens in the rat 129
PHENACETIN given to rats aged from 2 to 4 months, some effects . . . 197
PIG, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia after injection of isoprenaline . . . 35
PLACENTA of the diabetic woman, ultrastructural and ultrahistochemical study 91
PLEURAL CAVITY of rats, experiments performed to study the effects of agents that elevate endogenous cyclic AMP levels on the progression of a reverse passive Arthus reaction . . . 147
POINT COUNTING, development and persistence of bronchial-gland hypertrophy and goblet-cell hyperplasia in the pig after injection of isoprenaline. 35
quantitative microscopical study of tumour cell nuclei in lymphatic metastasis using a quantimet . . 5
POLYCYSTIC DISEASE of kidney, liver and pancreas, possible pathogenesis . 221
PREDNISOLONE, effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction . . . 175
PROSTATE, malakoplakia. . . . 119
PYRROLIZIDINE ALKALOIDS, localisation and tissue effects of tritiated dehydroretronecine in young rats . . 21

PAGE

QUANTIMET employed for a quantitative microscopical study of tumour cell nuclei in lymphatic metastasis . . 5

RABBITS, aurosome formation in articular tissues after parenteral administration of gold 183
effect of anti-inflammatory compounds on the biochemical changes in the Arthus reaction 175
RATS, effects of modification of intracellular cyclic AMP levels on the immediate hypersensitivity reaction *in vivo*. 147
experimental allergic sialoadenitis, acute parotitis following intraductal instillation of antiserum to salivary antigens 129
localisation and tissue effects of tritiated dehydroretronecine 21
morphological changes in indefinitely surviving enhanced ectopic cardiac allografts 29
polycystic disease of kidney, liver and pancreas, possible pathogenesis . 221
some effects of phenacetin . . . 197

SALIVARY GLAND, experimental allergic sialoadenitis, acute parotitis following intraductal instillation of antiserum to salivary antigens in the rat . . 129
SIALOADENITIS, experimental, allergic . 129
STOMACH, localisation and tissue effects of tritiated dehydroretronecine in young rats 21
STROMATOSIS, BENIGN, of the ovary and its relation to other forms of endometriosis 201
SYNOVIUM, aurosome formation in articular tissues after parenteral administration of gold 183

5,6,7,8 - TETRAHYDROCARBAZOLE - 3 - ACETIC ACID (AH 2835) given to maternal rats throughout their gestation producing an experimental model of the autosomally inherited human infantile polycystic disease Potter type I in the rat foetuses 221
THROMBOEMBOLISM, pulmonary arterial, in cattle with vena caval thrombosis . 229
THYMUS, incidence, pathology and transplantation of hepatomas in CBA mice 211
THYROID gland, osteosarcoma . . 123
TRANSPLANTATION, morphological changes in indefinitely surviving enhanced ectopic rat cardiac allografts . . 29
TRIAMCINOLONE-induced systemic infections in female mice . . . 57
TROPHOBLAST, ultrastructural and ultrahistochemical study of the placenta of the diabetic woman . . . 91
TUBULORETICULAR STRUCTURES and antinuclear antibodies in autoimmune and non-autoimmune diseases . . 49
TUMOURAL LIPOCALCINOSIS, clinicopathological study of 20 cases . . . 113
TUMOUR, ANIMAL, INDIVIDUAL, incidence, pathology and transplantation of hepatomas in CBA mice . . . 211
quantitative microscopical study of tumour cell nuclei in lymphatic metastasis using a quantimet . . 5
TUMOUR, HUMAN, INDIVIDUAL, mast cells in benign nerve sheath tumours . . 193
osteosarcoma of the thyroid gland . 123
ultrastructure of benign pigmented naevi and melanocarcinomas . . . 135

VENA CAVA, posterior, 16 cattle affected by thrombosis examined *post mortem*, various lesions described . . . 229
VENOUS INFARCTION of the adrenal glands. 65
VIRUSES, tubuloreticular structures and antinuclear antibodies in autoimmune and non-autoimmune diseases . 49

INDEX OF AUTHORS
